The best dressers always look to us for fine dress Foot-Wear and we never disappoint them. No fancy price for style and wear.

**H. T. LOGAN.**

Col. J. W. Caperton, well known here, a lawyer and statesman of national reputation, died in Richmond on Monday.

On account of having to pay a \$25 license, the ladies of the C. W. B. M. have decided not to serve a lunch at the court house on court day, as this amount would be more than their net receipts.

### Sick List.

There seems to be an epidemic of La Grippe in our community. We can only give such as have been reported, as follows:—Mr and Mrs B. F. Hudson, Mrs J. T. Hill, Mrs M. D. Hughes, Mrs J. J. Walker, Mrs Susan Fisher, John Morgan, Mrs Jnn. W. Miller and J. A. Royston.

### Big Sale.

Capt. Am Bourne reports a large crowd at T. H. Robinson's sale on 15. Everything sold well. Corn \$3.50 to \$4.10 per barrel; Hay \$12 to \$17 per stack; Horses \$100 to \$250, a colt 9 months old, Rex Moki, by Rex Peavine, bringing \$250; 20 snouts \$0.25 per head, sows and pigs \$12 to \$14.

The lecture "In Old Kentucky" delivered by Dr. Irene Myers, Dean of Women Transylvania University was a most scholarly treatise of the subject. She followed closely the records of the rare old Journals, showing that in the beginning our state made the right start—urging in the end that we press forward toward better things than we now have. This lecture should have been heard by hundreds of our citizens.

### Sunshine.

The sunshine is God's great agency for health. Disease germs live and lurk in darkness and filth. Sunlight and air destroy them as surely as do the most effective germicides made by man.

For 12 years a "health register" has been kept in every house in Paris. A study of these records shows that overcrowding and insanitary conditions do not favor the spread of consumption as much as does the absence of sunshine. d, dirty, and even dilapidated houses with plenty of sunshine showed fewer cases of tuberculosis than some of the new and costly apartment houses with narrow courts and containing rooms from which both sunshine and air were almost excluded and where there were many servants. Many of these expensive houses were found to be veritable breeding places for consumption.

If the sun is shining throw up the shades, part the window curtains, and give its health promoting rays a chance to flood every accessible corner of the room.

Mr Garrett Woods is on crutches having met with an accident on his farm. We are glad he is improving.

There will be preaching at Fair View church, Sunday April 25th, it being the fourth Sunday which is regular preaching day.

### Clean Up.

We again call attention to the necessity of cleaning up our alleys and premises throughout the city, not only for the appearance but for the sanitary condition of the town.

### Jury Money Ready.

Those who served as jurors at last term of circuit court can receive payment by calling at H. E. McRoberts drug store.

F. S. Hughes,  
Trustee Jury Fund.

Miss Hester Patton and Mr. Walker Burnside, of Richmond, were united in marriage on Wednesday at the residence of the bride's parents at Bryantsville. The bride was considered one of the prettiest girls of the county and possesses a charming personality. The groom is the only son of Mr. and Mrs. James Burnside, of Richmond and until the past two years was a resident of this county; he is a young man of exceptional business qualities, being one of the firm of Walker & Burnside, merchants, of Richmond.

### Richmond Convention.

Quite a number of members from here attended the C. W. B. M. and Bible School Convention, at Richmond on Tuesday. Among them were the following: Miss Sallie Ekin, District manager of the C. W. B. M., W. I. Williams, District manager of the Bible Schools, Eld. F. M. Tindler, Mesdames R. E. McRoberts, J. H. Mount, W. A. Arnold, Emma Kauffman, Ellen Owsley, W. G. Anderson, W. A. Price, J. A. Amon, H. V. Hastin, Wm Embury, Geo. D. Robinson and Misses Della and Fannie Thuder, Bettie West Sue Anna Lear, Annie Margaret Ekin and Lydia Emore.

### An Instructive Meeting.

The Woman's Club met in the lecture room of the Presbyterian church Friday, April 16th.

The responses to roll-call were made in Limerick which caused a ripple of laughter, and put the members in a happy frame of mind for the excellent paper on Ireland by Miss Altie Marksbury. She began with a hasty review of Irish history characterized by successive rebellions, showing how Irish misfortunes were due largely to bad government. In contrast to this darker side of Irish history, mention was made of many of Ireland's famous sons, lawyers, orators and statesmen, more, in fact, than could be kept within the confines of her own territory. Among these were Burke, Curran, O'Connell, Gratian, Moore, the Duke of Wellington, Goldsmith, Jean Swift and St. Gaudens, one of the world's greatest sculptors. This paper was concluded with a brief account of prominent Irish cities.

Mrs. F. P. Frisbie then gave a paper on Scotland, sketching principal events and great men from earliest legendary accounts to present time. The Scotch patriot, Wm. Wallace, Robt. Bruce, the hero king, Mary Stuart, the ill starred queen, and Jno. Knox, the leader of the Reformation, were given especial notice, as was that great event in Scotch history, the union with England.

After giving history of the religious dissensions, mention was made of Scotland's contribution to the literary world—in historians, metaphysicians, critics and essayists—and the poet, Robt. Burns, concluding with a biography of Sir Walter Scott.

After the Round Table, which was devoted to a discussion of the Waverly Novels, announcements were made concerning the next meeting on Switzerland, to be conducted by Mrs. George D. Robinson April 28th, at Christian Church.

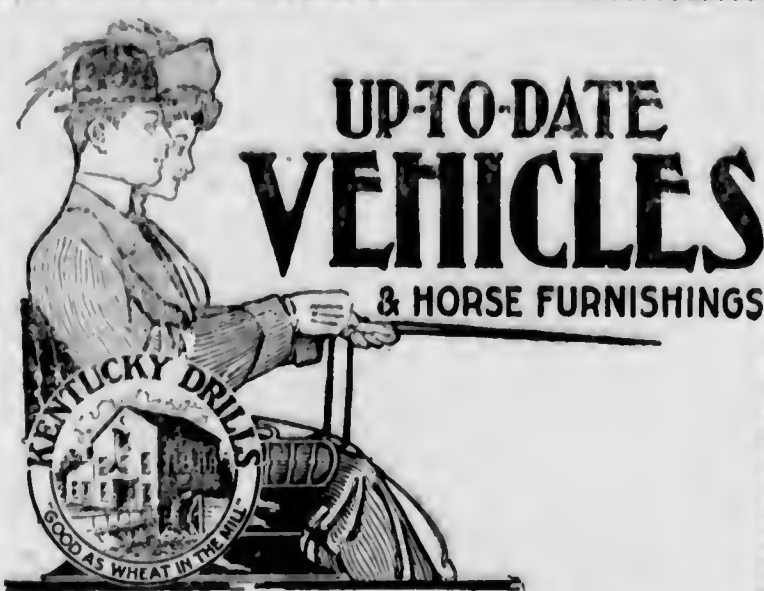

### A PROCLAMATION.

To Citizens of Garrard County.

In view of the historic neighborliness and good feeling existing between the counties of Garrard and Madison, and with a desire to foster and promote said fraternal relationship, be it known that the undersigned, acting in his official capacity, issues this Proclamation of Welcome to our friends of Lancaster and Garrard County on the occasion of the formal opening of the Blue Grass League Base Ball Season of 1909, in this city on Tuesday, April 27, 1909, between the home team and the strong nine from Lexington.

At three o'clock p. m., on that day, a mammoth parade of fifty automobiles headed by a brass band will march through our principal streets to the elegant new Ball Park near L. & N. depot. It will be accompanied by officials, citizens, players and visitors, the Fire and Police Departments, in command of Grand Marshals J. L. Gill, of Lancaster and A. C. Scanlan, of Richmond. By united, harmonious effort the day may be rendered memorable for its enjoyment of the great est of American sports, base ball, and also for a grand reunion of friends and neighbors whose social, commercial and political ties bind the two great counties together with bonds of steel. Given under my hand and with the Great Seal of Richmond, this April 21, 1909. Clarence E. Woods, Mayor.

In behalf of Lancaster and Garrard County we express our appreciation of the above, and hope that many from here may attend.

## Haselden Bros.

The Democratic primary in Jessamine resulted as follows: Senator, B. M. Arnett; Judge, J. H. Phillips; Sheriff, S. H. Muir; Assessor, E. Cassidy; Jailer, Richard Hager; Coroner, N. M. Kirkpatrick.

### Important Notice.

1st. The city has opened a stray pen, and all stock running at large will be promptly taken up and impounded.

2nd. The tax on dogs must be paid by May 1st, or they will be taken up and killed.

3rd. All dogs must be moved out of the city limits by May 1st, and hogs pens cleaned up.

This notice will be strictly enforced.

4-23-09 L. E. Herron, Marshal.

### Deaths.

Mr. James Simpson, a reputable farmer, age 82 years, died on Thursday and was buried at the Chapel on Saturday.

Mrs. J. T. Pope died at Williamsburg, on Sunday, and was buried there on Tuesday. She was the wife of J. T. Pope who recently purchased the John Arnold farm, near Lancaster.

Mrs. Thomas Cotton, died on Monday, at her home several miles East of Lancaster, and was buried in the cemetery here Tuesday. A very large procession of friends and relatives followed the remains. She was formerly, Miss Ray, and was related to some of the largest and most influential families in the county.

Mrs. Allen O. Hlatt who died in Barbourville last week was a grand daughter-in-law of Mrs. Rebecca West of this city. Young Mr. Hlatt was born and reared in Garrard county, being a son of Mr. and Mrs. Wm. Hlatt now of Winchester. Their only child died in Lexington last winter and the remains were brought here for interment. Much sympathy is felt for the young husband in this, his double bereavement.

### \$800.00 For Christian Education.

During the canvass of Dr. P. T. Hyle and the pastor of the Lancaster and Buckeye Baptist churches, this week, these churches have given to the Baptist Education Society, of Kentucky, in cash and pledges, eight hundred dollars to build up the Baptist schools in the state.

The pastor is greatly rejoiced because of this response of his people, to this the greatest, perhaps, of all work for bringing in the Kingdom of God. He is praying that others of his people, who have not given may hear the call and answer "Here am I" and give and get the blessing that comes from the grace of Christian giving.

By this giving these two churches have invited the Spirit of God to abide with, and lend them to greater usefulness. May God bless and lead others to a noble response.

Mr. S. D. Chelran is filling an unexpired term as trustee of the Graded School. An election for one trustee will be held the first Saturday in May and the patrons should elect him.

### Flower Sale Continues.

The flower sale held by the Ladies' Aid Society of the Baptist church will continue for several days, and they will make Saturday and Monday special days. Give them a call.

Eve was made of a ribout of the side of Adam—not made out of his head to trip him nor out of his feet to be trampled upon by him, but out of his side to be equal with him, under his arm to be protected, by him near his heart to be loved.—Matthew Henry.

### Some Queer Laws.

Texas can lead all states in the number of freak laws on the statute. Hotel keepers in that State are required to have sheets nine feet long on the beds, another law makes it a felony for a man to play a game of cards on a train and the latest is a law which requires people to give ten days public notice before getting married. In other words you must blow the whistle to let them know the cars are coming and unquestionably the new law will put a stop to all elopements, for Texas is so big that few people can afford the expense of going out of the State.

### Base Ball Notes.

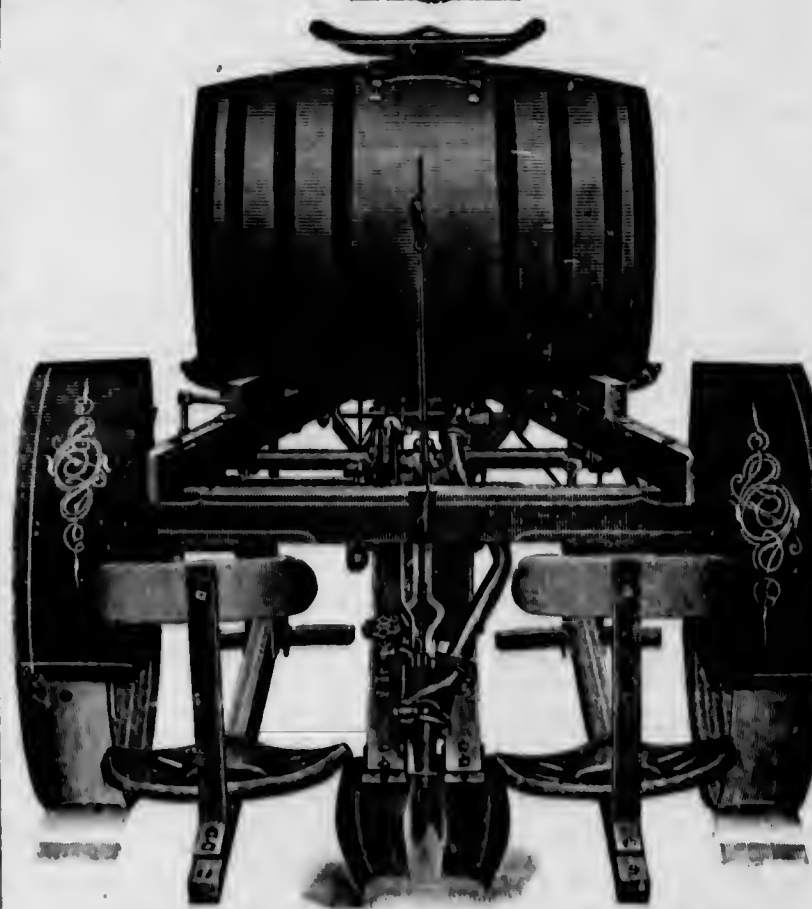

On last Friday night at the called meeting of Base Ball boys, much business was attended to and the following officers elected:—W. O. Dunlap, Manager, R. W. McRoberts, Captain F. S. Hughes, Treasurer. A committee was appointed to arrange for grounds etc.

The game between C. U. Preps and Lancaster High School, Friday, result in a score of 15 to 5 in favor of the home team.

### ANNOUNCEMENTS.

To the Democratic party of the 13th Judicial District: I am a candidate for the Democratic nomination for Circuit Judge of this district. I prefer a primary election.

M. C. SAMPLEY.

We are authorized to announce Hon. Chas. A. Hardin, of Harrodsburg, as a candidate for re-nomination for the office of Commonwealth's Attorney for the 13th Judicial District, subject to the action of the Democratic party.

We are authorized to announce Hon. John Sam Owsly Jr. as a candidate for the nomination for circuit judge of this the 13th district, subject to the action of the Democratic party.

The powers should take a hand against the anti-Christian spirit, in Asia Minor, where Christians are being persecuted without discrimination.

The entire Becom force was delighted, on Monday, to have a pleasant call by Capt. Louis Landrum, who is now doing such splendid work as editor of the Climax. His friends will be glad to learn that he has fully recovered his health, and looks as fresh as a newly blown rose.

Tariff is a tax, and uniformity of taxation requires that all be taxed alike, but, under the proposed tariff, the man, worth a hundred dollars, pays as much tax, on the necessities of life, as the man worth a million pays. This is radically wrong. But the tax on property, and let us have free trade.

President Tim Needham, of the Kentucky Press Association, has announced the program committee for the summer meeting of the association which will be held at Rest Springs in June, as follows: H. A. Summers, Chairman; E. A. Gullion, R. H. Shinn, Harry McCarty and Robt. W. Brown. The amusement features will be under the direction of the Eighth District League.

We nominate Senator Bailey of Texas for President in 1912. His fight to reduce tariff duties, on the necessities of life, 20 to 25 per cent, and supply the deficiency in the revenue by an income tax, is a move in the right direction, as the proposed bill imposes an equal burden on the rich and the poor, when everybody knows that property should bear a greater burden, as the government is at more expense to protect it, in the courts, and otherwise.

That the dry laws are enforced at Birmingham is abundantly proved by the fact that about five thousand fewer arrests were made in 1908 than in 1907. This is true everywhere with proper police regulations. Local option is, in effect, the same as prohibition. If liquor is not sold it will not be manufactured. Then why does the Courier Journal favor local option and oppose prohibition? A distinction without a difference, and the people should have the right to control, in either case.

The thought of the floating, or purchasable element, in politics, being permitted to take part in nominating candidates, is revolting to every good citizen. If paid to nominate he will accept pay to defeat the nominee, and party organization goes for naught. Besides the immorality and corruption entailed by such methods, the nominee will feel more or less under obligation to those who managed such a campaign, and frequently corruption is found in the officer thus elected. Of course, such methods cannot be en-

tirely eliminated, but, they should be curtailed as far as possible, especially in a family or party contest.

Unable to find a competent Republican, it is believed that President Taft will appoint a Democrat to the Federal bench in North Carolina. The people of that state are very fortunate.

The question of female suffrage is receiving attention in some parts of the country. We admit that woman is man's equal intellectually and his superior morally. We further believe that she would vote for the best interests of the public, for a time, at least. We fear, however, that she would finally become corrupt and seek to enact laws regulating fashion and making man her slave, even more than he is now. We object to her being allowed a vote because she is too pure to become degraded by politics. Society and home would be deprived of her sweet, refining influence and we would lose more than we would gain.

Advertising on fences and trees, along the roads, is money thrown away. The advertiser gets practically no results from money spent on that kind of advertising. We venture the assertion that not one person in a thousand is influenced to go to any particular store by the signs which are placed on the fences, calling attention simply to the fact that a man is in a particular line of business. What the purchaser wants to know these days, is how much things cost and what they are. A description of the goods for sale, and the sale price, is what gets the customers. The modern advertiser knows that the newspapers offer the greatest advantages to the advertiser and that is the reason that newspaper advertising is on the increase.—Richmond Pantagraph.

## General News.

The total estimate of the expense for obtaining the census will be \$11,000,000.

Senator Bailey introduced his amendment to the tariff bill, putting a tax of 3 per cent. on incomes over \$5,000.

The Democratic Senators agreed to stand by Senator Paynter in his fight against the 6 cent tax on leaf tobacco.

A bill which makes it possible to vote the State "dry" by local option has been introduced in the House of Representatives of the Arkansas Legislature.

Burglars blew the safe in the Alcona County Savings Bank at Harrisville, Mich., and escaped with \$5,000. The thieves overlooked \$2,000 in currency.

Announcement is made that 24-cent passenger fares will become effective on all the Rock Island lines in Arkansas May 1. The other railroads of the State are expected to follow.

Charles J. Bronson, former State Senator and one of the best-known lawyers and politicians in Kentucky, died at his home in Lexington. He was a sufferer from heart disease, which caused his death.

Dr. R. K. Pearson, of Chicago, has given \$25,000 to Berea College. The money will be used to erect a new boys' dormitory. This is Dr. Pearson's third donation to the institution, the three aggregating \$175,000.

The effects of Patten's big deal in May wheat are being felt all over the country. Master bakers in the cities are holding meetings and agreeing upon an increase in the price of bread.

Still higher prices for the grain are predicted in the Chicago pit this week.

Dispatches from the White River (Ind.) farming district in Pike and Daviess counties say that land owners and their tenants fear there will be serious conflicts with night riders, who continue to destroy property of tenants that give landlords more than one-third of crops as land rent.

Four prominent cattlemen were taken from the city jail at Ada, Okla., and lynched by a mob of 200 citizens. All the men lynched were charged with complicity in the assassination of a United States Deputy Marshal. They were J. B. Miller, B. B. Burrell, Jesse West and Joe Allen.

The massacre or Armenians at Adana continues. The troops are unable to control the situation and some of the soldiers are joining in the pillage. According to advices received at Constantinople no less than 5,000 persons lost their lives in the massacres that have been going on in Adana during the past eight days.

The Democratic Senators will not delay the passage of the tariff bill. They held their second conference and while no formal conclusion was reached, there was a general consensus of opinion in favor of permitting the Republicans to take entire charge of the measure, with the understanding that they assume, as they necessarily must, the entire responsibility for it.

St. Louis authorities are still at sea as to the whereabouts of James Shepard Cabanne III, the boy who was abducted from his grandmother's home in that city. The father of the boy has come to St. Louis and is using all efforts possible to find his son. The police officials think the boy has been taken by his mother, who is in hiding with him at some place in the Mount City.

Theodore Roosevelt and the members of his African party disembarked Wednesday in Mombasa from the steamer Admiral, and the much-heralded African hunting trip will actually begin. Mr. Roosevelt will lose no time in receiving official or private welcome at the African airport. He has requested that his special train be in waiting as near as possible to the wharf where he lands.

Judge Adam refused to grant a continuance for Beach Hargis, charged with the murder of his father. Hargis' attorneys asked for a continuance because the chief counsel for the defense, United States Senator Bradley, was not present, and also claiming that the feeling against the defendant was too intense to allow a fair trial.

Senator Aldrich opened the debate on the tariff bill in the upper house and read a lengthy prepared statement giving his views as to the revenue that would be derived from the bill and the amount necessary to support the Government. Senator Aldrich said that reckless expenditures of public funds must be stopped and that with economy it would not be necessary to impose an income inheritance tax. Senator Daniel followed and presented the position of the Democratic Senators toward the new bill.

## AVOID DRAUGHTS OF AIR.

Sheep Will Suffer Severely If Inadvertently Housed.

A snottiness sheep is a forlorn looking object. Not alone is it forlorn looking, but it is also undoubtedly forlorn feeling. With its membranes inflamed and integument congested, it surely is not in a condition to be either comfortable or happy.

Such a sheep, however, does not put into it falls to being returns, and money is being lost instead of made on these animals.

One of the commonest causes of snottiness is standing in draughts of air. Most farmers seem to utterly disregard this matter and yet nothing is much more detrimental to sheep in winter than being exposed to draughts.

When they are right outside, heat is generated rapidly and is radiated slowly and uniformly. When they are inside heat is generated slowly and it draughts sweep across them, is radiated very rapidly. Their fleeces parts, as they lie down and in a very short time they are thoroughly chilled.

A cold with all its attendant evils results. If, on the other hand, sheep are not exposed to dampness or to draughts when inside, they are not likely to take cold.

It is carelessness on the part of farmers or ignorance of the dangers, rather than inability to overcome it, that subjects sheep to such exposure.

Almost any man, under almost any conditions, can devise a means of keeping sheep out of draughts. One method commonly employed is that of keeping the sheep either outside or in, thus avoiding the necessity of leaving the entrance way continually open.

If the barn is a warm one, care must be taken to regulate the temperature by windows upon one side, else the barn will become too damp and warm and the sheep will take cold upon going outside.

This scheme is a pretty good one, as outside feeding and plenty of exercise are associated with its proper working.

Another method of obviating draughts suggested by The Farmer, is to set a second door or gate at such an angle with the regular one as to direct the passage of air into a corner away from where the sheep lie.

Those who use open sheds have the least trouble of all because the circulation of air within is like that without and there are no rising currents. The only difficulty in this case arises when the wind or storm comes from the direction of the open side of the shed; then unfortunately nothing can be done to protect the sheep except put them in different quarters.

A little care and a little thought expended along this direction will be more than repaid by the increased healthfulness and growthiness of the sheep.

### A SURE GATE LATCH.

A Good Device for the Big Gates Which Will Hold Them Shut.

A good device for latching a gate to hold in place by the stops e and d, which is of hard wood and about two feet long comes against the post, e, is shown in the cut. The piece, a, is the latch, b, which swings on the post, holds the gate shut.

Blanket the horses when they are exposed to hard winds. A bad cold will prove a poor thing for the horse and you too.

In stabling horses or cows never place the hay where they have to reach up to feed. When the head of the animal is up dust may get into the eyes.

Keep more sheep, better sheep and fewer dogs.

You ought not to be satisfied if you cannot put 1½ bushels of wheat on lambs during the fattening period.

The ram should be over a year old, and have a masculine appearance, a good, broad muzzle, and a fairly large head with plenty of width between the eyes; the scrag short and heavy, with the neck well blended into the shoulders.

### Worms in Horses.

For the cure of worms in horses or colts there is nothing better than common tobacco. Pulverize the tobacco leaves with the hands and place a small quantity in each feed of shelled oats for a few days and the worms will be expelled without any ill effects to either horse or colt. Colts will soon learn to like the tobacco and eat it freely. Many a colt that is now kept poor and scrawny by the worms if given pulverized tobacco leaves in this manner will soon begin to thrive and take on flesh. Worms are great pests to colts and even old horses, and keep them poor, and every humane man should aid in getting rid of them to save suffering and to induce good health.

## OFFICIAL CALL.

The Democratic Committee to meet for the Thirteenth Judicial District of Kentucky met pursuant to the call of Chairman H. L. Penny, at the office of Chenault Hugueley, in Harrodsburg, Ky., on Tuesday, May 18, 1909, at 2 p. m., and all members were present. Said meeting was called to order by Chairman Penny.

Chairman Penny announced that the election of a Secretary of said Committee was in order, and Chenault Hugueley was duly nominated and elected Secretary of said Committee. Mr. Hugueley then introduced the following resolutions, which were unanimously adopted:

1.—A primary election is hereby called, to be held in the several voting precincts of Lincoln, Boyle, Garrard and Mercer Counties, between 11 a. m. and 8 p. m. on Saturday, May 15, 1909, for the purpose of nominating Democratic candidates for the offices of Circuit Judge and Commonwealth's Attorney in and for the Thirteenth Judicial District of Kentucky, to be voted for at the regular November election, 1909.

2.—All Democrats who are legal voters shall be entitled to vote in said primary election, and are requested to do so.

3.—Any person who desires to be a candidate for the Democratic nomination for Circuit Judge or Commonwealth's Attorney shall, and later than April 30, 1909, give notice of such intention, in writing, to H. L. Penny, Chairman of the District Committee of the Thirteenth Judicial District, and, in addition, candidates for the nomination for Circuit Judge shall, at the time of giving said notice, deposit with the aforesaid chairman the sum of \$500, and candidates for the nomination for Commonwealth's Attorney shall, at the time of giving said notice deposit with the chairman \$200.

4.—Said District Committee shall meet at the office of the secretary in Harrodsburg, Kentucky, on Wednesday, May 19, 1909 at 2 p. m., and, at the expiration of the time fixed by section 3 hereof, there be not more than one candidate for Circuit Judge or Commonwealth's Attorney, who has complied with the conditions of Section 3, then the Committee will declare to be the nominee for the office sought, that person who is the only candidate, and shall refund to such candidate the entrance fee paid by him, less his proportion of the costs already accrued from advertising and preparing for the election.

5.—The polls shall be opened in each and every precinct of all the counties in the district aforesaid, in the usual and regular voting places.

6.—Upon the closing of the polls, the officers shall proceed to count the ballots and to make returns, and in so doing shall be governed by the provisions of the general election laws, and the returns shall be made to the chairman of the respective counties in the district, who will deliver the stub-books, the certificates, and any questioned ballots in this Committee.

7.—The voters of election shall be selected from lists to be offered by the candidates, in accordance with the provisions of the primary election law, by the district committee.

8.—Each candidate shall be entitled to designate by written notice to the chairman of each county committee in the district, not less than five days before May 15th, 1909, the name of one person for each county precinct in each county, to act as challenger and inspector for said candidate at said primary election.

9.—On the next day after the returns shall have been made, the committee shall meet and canvass the vote, cast and issue certificates of nomination.

10.—The chairman of the district is directed to employ a competent person to copy from the regular registration books made in Harrodsburg and Harrodsburg in 1908, the names of all Democrats, and the person so employed shall return the copies, certified as required by law, to the chairman, who shall cause them to be duly delivered to the officers of election. The chairman is further directed to cause to be printed and prepared for use the requisite number and kind of ballots, which shall bear the fac simile of his signature, and he will procure the necessary election supplies and cause them, together with the ballots, to be delivered to the officers of election, as required by law.

11.—The chairman will cause copies hereof, certified by himself and the secretary of the committee, to be posted at the court house door in Stanford, Lancaster, Harrodsburg and Harrodsburg, and in twenty other conspicuous places in each county in the district, if not less than forty days prior to May 15th, 1909, and said notice shall be published in each Democratic newspaper in the District.

Said Committee, on motion, then adjourned.

#### STOMACH AGONY

Abolish the Cause, and Misery and Distress of Indigestion will Vanish.

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas, biliousness, sour stomach, fullness, nausea, shortness of breath, bad taste in mouth, foul breath, nervousness and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousands of sincere letters from people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of MIO-na, the mighty dyspepsia remedy that cures by removing the cause, they would go to R. E. McRoberts this very day and get a large box of MIO-na tablets.

The price of MIO-na tablets is only 50 cents, and R. E. McRoberts guarantees them to cure indigestion, or money back.

Thin or lean or scrawny people will find in MIO-na a maker of flesh and blood, because it causes the stomach to extract more nutritious matter from the food.

#### Objects To Strong Medicines.

Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of every ten cases of the disease are of one or the other of these varieties. When there is no fever and little (if any) swelling, you may know that it is only necessary to apply Chamberlain's Liniment freely to get quick relief. Try it. For sale by F. P. Frisbie.

#### MARKSBURY.

Messrs. J. M. Eiger and Benjamin Dunn have been visiting friends in Paint Lick.

Miss Elizabeth Simpson is home again after an extended visit to relatives at Stanford and Louisville.

Mr. Ben Pundexter and Miss Lear, of Burgin, were married Wednesday, of last week, at Danville, by Rev. Everett Gil.

Miss Hattie A. Wolf died after a surgical operation at the infirmary in Minneapolis. She was doing nicely as thought by her physicians and had planned a visit to her Kentucky friends in May, but one evening while the nurse was rubbing her she suddenly said "It grows dark" and died in an instant. She was a musician of note, having studied at Leipzig, at the time Carl Reinecke was director of the Conservatory. She did so well in her studies while there that she was offered the honorable position of private teacher to his grandchild. She is especially remembered here as one of the attendants at the South-Dawson wedding. While on her visit here she made many friends who regret to learn of her decease.

Miss Edna Berkle a pupil of the school taught by Miss Dunn received the highest general average which was 95.

Mrs. Fannie Floyd died at her home in Danville after an illness of several years. She was buried in Bellevue Cemetery Monday afternoon.

### WHAT IS HEAVEN?

By REV. A. C. DIXON, D. D.,  
Pastor of the Chicago Ave. (Moody) Church, Chicago.

Jesus said: "I go to prepare a place for you." Heaven is, therefore, a locality. In just what part of the universe it is located we do not know. Astronomers say that all the stars and planets seem to be revolving around a great distant center. That center may be heaven.

It is a cosmopolitan place. "I beheld, and lo, a great multitude which no man could number, of all nations, kindreds, people and tongues." Every tribe of earth shall have representatives there. Jesus, a Son of Man, is suited to all nationalities.

Christ Enthroned.

Heaven is a place where Christ as Saviour is enthroned. The great multitude "stood before the throne, and before the Lamb, and cried with a loud voice, saying, Salvation to our God which sitteth upon the throne, and unto the Lamb." In another place we are told that they say "The Lamb as it had been slain, in the midst of the throne." The victim of Calvary is king of heaven. His pierced hand holds the scepter; the brow that was crowned by the crown of thorns wears the crown of glory.

Purity.

Again, heaven is a place of purity. The inhabitants are "clothed with white robes." "These are they which came out of great tribulation, and have washed their robes and made them white in the blood of the Lamb." The blood washes white, and never whitewashes.

Peace Through Victory.

Heaven is also a place of peace. The white-robed throng have "palms in their hands," and the palm is a symbol of peace through victory. Through Jesus Christ they have been reconciled to God and gained victory over sin. There is no discordant note in their nature. They love God's will and way. They do his pleasure.

Worship.

And heaven is a place of worship. "They fell before the throne on their faces and worshiped God, saying, Amen. Blessing, and glory, and wisdom, and thanksgiving, and honor, and power, and might, be unto our God for ever and ever. Amen." They begin their worship in heaven with "Amen." It is the "Amen" of acquiescence in God's will. They close their worship with the "Amen" of praise.

Service.

Heaven is a place of spiritual service. "Therefore are they before the throne of God, and serve him day and night in his temple." We draw this distinction between the secular and the sacred. We have our secular days and our sacred days, secular places and sacred places, temples of worship and stores for business. In heaven it is all temple. The temple, you know, is a house completely consecrated to God; every part of it is his and he fills it. All heaven is his temple.

Social.

Heaven is a social place. A city indicates that. The highest form of civilization and social life is in the city. Sad to say, in the cities of earth the social nature is degraded, and gives also the very lowest form of degradation, but in the city of light where there is no sin, social life will reach its perfection.

Treasures.

Finally, heaven is the great treasure city of the universe. It is God's capital, and into the capital city the treasures of art, of music, of learning of wealth, of power, of honor, of command are to lay up treasure in heaven where it will be safe forever. Hoarding upon earth will make the miser miserable; hoarding in heaven will make the Christian forever happy. And this does not mean that only millionaires can lay up treasures in heaven. The widow with her two mites, the seamstress with her meager income, the working man with his small wages, the child who saves from its weekly allowance may, by sacrificing for Jesus, lay up treasure in heaven.

There is a heaven of beauty, peace, purity, plenty and glory ahead. What are we to do for all this? God replies: "Only love me, and be my obedient, faithful child."

Beginning of Alfalfa Crop.

Alfalfa was first brought to Kansas by the late Harrison Parkman of Emporia. Mr. Parkman first saw alfalfa growing in Chile. He brought the seed to America and in the late '70s he went to Emporia to live. He sowed alfalfa in a farm which he bought and the plant prospered. It was slow in gaining popularity in Kansas, but is now one of the state's most important forage crops.

Would Honor Journalists.

A Paris paper complains that no journalist has yet been buried in the Pantheon, and mentions as representatives of the craft who ought to be there Chateaubriand, Benjamin Constant, Paul Louis Courier, Armand Carrel, Emile de Girardin and Louis Veuillot.

"I'd Rather Die Doctor,

than to have my feet cut off," said M. L. Bingham, of Princeton, Ill., "but you'll die from gangrene (which had eaten away eight toes) if you don't!" said all doctors. Instead he used Bucklen's Arnica Salve till wholly cured. Its cures of Eczema, Fever Sores, Halls, Burns and Piles around the world. See at R. E. McRoberts. Im

#### ROADSIDE WATERING PLACES.

Good Chance to Combine Utility and Beauty in the Countryside.

There is an excellent chance to combine utility and beauty in the erection of attractive and permanent watering places in village streets and along country roads. The old moss-covered tub, half buried in a bank of ferns and wild flowers, presents a picturesque appearance, no doubt; but in a short time the hoops of the tub give way, the staves fall in, and a long interval may elapse before the watering-place is again in commission.

As one drives about the country during the summer, he mentally "sizes up" the character of the people and the value of their farms by the appearance of their roads and roadides. A writer in Country Gentleman tells how he happened to be in a certain country village a little while ago, and saw there on the main street, at the meeting place of two roads, the very attractive and substantial watering-place that is shown herewith. There was no need to be told that the community was progressive and intelligent, for its character was writ in its roads, its sidewalks, its roadside shade

Place to Water Horse.

trees and in this example of its concern not only for the comfort of dumb animals, but for beautifying the place as well.

Not every country village would feel able to build such a structure of dressed stone as was the case in question, but one less elaborate in design, and made of concrete, is certainly within the means of any community that has fortunately become inebriated with the home-improvement germ. It is also within the means of the individual country property owner to erect on the roadside in front of his farm a simple but substantial and attractive concrete watering-place.

The first requisite is, of course, a supply of running water, which this season has been especially hard to get. Then a substantial stone foundation should be laid below the frost line—an iron supply pipe as well as a waste pipe being brought up through this foundation. On this foundation can be erected as simple or as elaborate a design as one may desire. A mold of rough boards can easily be set up for this. The concrete is poured into the mold, and the boards are nailed to the upper edges. The boards can be raised as the work goes on.

It is important, in making any form of stone or concrete water-place, that there should be an out-curling wheel-guard all around the base, such as is shown in the illustration; otherwise a careless driver will soon mar the beauty of the most substantial structure. The roadway in front of a drinking place should also be well paved with small cobble stones, else the horses' feet will soon dig out holes that will fill with water and make the approach very muddy.

If a round watering-place is desired, it will be well to set up on the prepared foundation a section of boiler iron, or such a circular iron section as is used beneath roadways to permit the passage of water. This will make an excellent lining for the watering place and will provide a fixed mark to work from—the concrete being built up around this iron cylinder, the outer surface of the concrete being kept at an exact distance from the iron lining all the way around. When completed, but before the concrete is hard, the outer surface can be scraped with a straight-edged board, held perpendicularly, which will give a smooth and even surface. A rectangular watering-place ought to present even fewer difficulties, for instead of the double board guides before mentioned, a box of the required shape and size can be used as a temporary lining, this being raised and carried to the desired height. When any structure of this sort has been completed, a tree of some native growth should be set at one end or behind it, that some day may cast a grateful shade over the drinking-place. A few shrubs also grouped about will take off the bare effect of the concrete work and make the whole a most attractive adjunct to the farm and to the roadside.

Seattle, Washington, April 22

People Sam is taking a larger inter-

est in the Alaska-Yukon-Pacific Ex-

position, which opens in Seattle on

June 1, than in any other exposition

ever held.

At the World's fair in St. Louis, the

United States Government exhibit

covered an area of 125,466 square feet.

At the Lewis and Clarke exposition in

Portland, it covered 75,261 square feet.

At the Alaska-Yukon-Pacific Ex-

position the government buildings cover

an area of 137,390 square feet and

there are live of these magnificent ex-

hibit places.

May Music Festival.

The New York Symphony Orches-

tra and Walter Damrosch, its conduc-

tor, form a combination which has no

superior on either side of the Atlan-

tic ocean. The artistic value of the

orchestra is such that it has already

been hailed as the national musical

organization, and the influence upon

it of its conductor is so great that peo-

ple recognize it just as well when it is

called "Damrosch's orchestra."

Versatility is one of Damrosch's

characteristics. He is a composer, a

lecturer, a critic, and he is just as good

in each role as when he is waving the

baton over the New York Symphony

Orchestra.

Mr. Damrosch is conductor-in-chief

of the May Music Festival to be held

at the First Regiment Armory in

Louisville May 6, 7 and 8. He ar-

ranged the programs, which is a suf-

ficient guarantee of their general ex-

cellence. His full orchestra will be

with him at the festival.

"One Touch of Nature Makes The

World Kin."

When a rooster finds a big fat worm

he calls all the hens in the farm yard

to come and share it. A similar trait

of human nature is to be observed

when a man discovers something ex-

ceptionally good—he wants all his

friends and neighbors to share the ben-

efits of his discovery. This is the

touch of nature that makes the whole

world kin. This explains why people

who have been cured by Chamber-

lain's Cough Remedy write letters to

the manufacturers for publication,

that others similarly ailing may also

use it and obtain relief. Behind ev-

ery one of these letters is a warm

hearted wish of the writer to be of

use to someone else. This remedy is for

sale by F. P. Frisbie. 2c

## NABOTH, JR.

Naboth, Jr. is a rich red bay, 8 years old and full 16 hands high weighs 1200 pounds and is a horse of wonderful beauty, having a long, rangy neck and carrying a fine tail. He is a perfect galloper with superb all round action and like all sons of old Naboth he has great natural speed in harness and a greater racking horse can not be found in the State of Kentucky. I have been a dealer in fancy horses for ten years, furnishing them for all the markets in this country and I am anxious to encourage the breeders of horses to continue to raise better ones. As is generally known there is a scarcity of good horses, and those suitable for the Eastern market bring fancy prices. If the breeders would raise "Naboth" and "Naboth, Jr." they must take the mares in the right kind of stock. Naboth, Jr. is a horse that will produce that type of horse that the market demands, and for which the public is willing to pay high prices. I purchased this great young stallion at a fancy price because he has speed, style, action, beauty and breeding. I had this horse worked 30 days and he stepped a mile in 2:10.

If like begots like you can get the right kind of horses by breeding to Naboth, Jr. You will note that this Stallion has the blood of Old Naboth, Hambleton 10, Old Messenger Chief, Red Wilkes, George Wilkes, Manheim 10, Phil Jr and Harry Clay.

PEDIGREE.

By Naboth, 1008 2:19.4; He by Walsingham, 2165, sire of Latitude 2:19.4 and several titles in the list. Walsingham by George Wilkes.

Old Naboth's first dam, Tinsel by Messenger Barock 106, son of Hambleton 10.

Second dam, Best, sister to James Hambleton, Jr. by Hambleton 10. Third dam, Jessie Bayre by Harry Clay 15. Fourth dam, by Liberty, son of Lane, by American Pelican.

Naboth, Jr.'s first dam by Messenger Chief, Jr. by Old Messenger Chief. Second dam by Cret Davis, by Red Wilkes. Third dam Thoroughbred.

Naboth, Jr. will be kept during the season of 1900 at my stable in Lancaster, Ky., and will be permitted to serve mares at the very low price of \$10.00 in season a living colt. I am prepared to care for stock from a distance at reasonable prices but no responsibility assumed for accidents or escapes of stock committed to my care.

NOTICE.—Naboth, Jr. is the sire of the colt that won the 1000 championship mile stake, also the sire of the winner of the yearling stake, at the Lancaster Fair 1900.

F. T. Parkes, of Preacher'sville, will castrate your colts, on short notice. 4 2 4

Trees exhaust the soil just as ordinary crops do. Fertilize your orchards and you will hear less about blight.

Mr. M. B. Kirby, of Smith's Grove, Ky., recently sold a young saddle stallion sired by Eagle Boy 3,004 to Mr. Garland Pope, of Rocky Hill, Ky., for \$500.

Stock feed is said to be getting quite scarce in some parts of central Kentucky. In some places corn is selling at from \$4 to \$4.50 per barrel, and hard to get at that. Hay and other roughage is also becoming scarce.

The dairy products of the United States of the last year are valued in round figures at \$800,000,000—a vast sum, nearly as much as the first cost of the great Civil war, and nearly as much as the oats and wheat crops combined.

A. T. Traylor will have Stonewall Jackson, Jr. at Sweeney's stable on 26, court day, and will answer any questions in regard to breeding barren mares, he having met with great success along that line. 4-16-21.

The Executive Committee of the the Hurler Tobacco Society met at Winchester, Ky., last week. Over one hundred hogheads out of the amount

sold the American Tobacco Company were returned as junked, and they discussed the matter of fixing a price on this.

J. L. Nichols & Sons, of Woodburn, have sold to Lawrence Jones, of Louisville, a fine young bay saddle and show horse, for \$2,000. The horse has been shipped to Louisville and will be entered in the Horse Show held in Louisville and will also be shown at various county fairs.

A car load of hogs sold at the Cincinnati Stock Yards Friday the highest price in seven years. The car load of "selected shippers" averaged 208 pounds each, and brought \$7.45 per hundred pounds. This made each hog sell for \$22.50. The highest previous record was made in September, 1902.—Winchester Democrat.

McKee Bros., of Woodford county, who had in a sixty acre crop of potatoes last year, will put in 175 acres this season. They realized so handsomely on last year's crop that they claim it made them even more money than tobacco at fifteen cents. Several other farmers of that county will plant from fifteen to twenty acres of the spuds.—Jesseman Journal.

If two more hens are given chickens the same day, do not keep their coops close together, or the chickens will become uncertain of their own mother's voice, and a surprising number will be lost in high grass and on windy days, simply because they cannot accurately follow their mother's "cluck." This is of especial importance with chicks having wide range. Do not give one hen too many chicks. From fifteen to eighteen will give best results.

To the Gleaner's way of thinking there are but two ways to look at the pooling proposition. The farmer must either join the pool or be at the mercy of the trust. The facts are that for three or four years before the pool was formed the trust took the tobacco for practically nothing. Since the pool was formed the price has been doubled. The tobacco raiser ought to be able to figure out for himself which has been and will be best for him. The management of the pool may not have been perfect and it is unreasonable to expect that everyone will be pleased no matter how well it may be managed. But a management that enables the tobacco raiser to get twice as much through it as he did through the trust is not to be sneezed at, we are here to tell you.—Henderson Gleaner.

Spray your strawberries just before the first blossoms appear with the Bordeaux mixture, in combination with arsenate of lead.

Spray currants and gooseberries as soon as the first leaves appear. Mr. Corran worm never fails to visit, you give him a warm reception, and by so doing you can have plums, jellies and tarts in abundance.

Spray raspberries and blackberries at the same stage of growth and the same mixture that you have your strawberries.

Don't wait to long to prune grapes, blackberries and raspberries. If they were pinched back last year they can stand alone and need neither stakes, posts or wires, as you can give each individual cane a pyramidal shape.

Don't plant a set of trees, shrubs or canes until all the dried out roots have been cut off and the remainder have been soaked in moist earth or water for four or five hours.

Sitting down and complaining never made a penny in orcharding. Hugs and the rote are doers, and not kickers or dreamers.

Words To Freeze The Soul.  
"Your son has Consumption. His case is hopeless." These appalling words were spoken to Geo. E. Helyar, a leading merchant of Springfield, N. C., by two expert doctors—one a lung specialist. Then was shown the wonderful power of Dr. King's New Discovery. "After three weeks use," writes Mr. Helyar, "he was as well as ever. I would not take all the money in the world for what it did for my boy." Infallible for Coughs and Colds, its the safest, surest cure of desperate Lung diseases on earth. 50c and \$1.00 at R. E. ## VERDICT 1821.

Will make season of 1900 at my place, 4 1/2 miles from Lancaster on Poor House Pike.

Verdict is a dark chestnut, 15 1/2 hands, coming 5 year old, with as much natural style and action as any stallion living, as fine as any mare or gelding you will see, combining all the qualities as to looks, breeding, style and action that go to make a great sire and a first class producer. If the law of nature repeats itself—that like begets like—then you have an ideal stock horse in Verdict. I claim that Verdict carries more of the blood of Old Pavline and Washington Denmark than any horse living, as his breeding will show.

Verdict's career as a show horse has been equaled, winning as a 3 year old and as a 4 year old straight through the Fair Circuits without a break, closing his 3 year old campaign at the Louisville Horse Show by winning two first ties in black and white and winning second in his class for stallions any age, thus going against the pick of the aged stallions from Kentucky, Tennessee and Missouri, in a ring of fifteen horses, Verdict's show career was cut short by illness, only showing at Richmond and Lexington where he won first premiums in aged stallion class.

In 1904 Verdict had fully recovered from his illness, and after making a heavy season he showed first at Kirksville, where he won the \$500 stake for best stallion, mare or gelding, also first for best aged stallion. His second show was at Lexington, where he won first, then to Harrodsburg, where he won first in aged stallions, first in Sweepstakes, (18 entries) first in combined ring and first in model ring at this fair. Verdict met with an unfortunate accident which kept him from going to the Louisville Horse Show, but which he was being specially prepared under the able supervision of Nat S. Cohen.

## Pedigree.

Verdict 1821, sired by Cere Gordie 1822; by Black Squirrel 55; by Black Eagle 71; by King William 67; by Washington Denmark 61; Verdict's dam, Jay Bird 1014; by Pavline 55; 50 dam by Young Diamond; he by Diamond Denmark 65; by Washington Denmark 61.

Cere Gordie's dam, Miss Bloomend 54; by King Richard; he by Pavline 55. King Richard's dam, Miss Pharo; by King Richard; he by Pavline 55. Miss Pharo's dam, Jenny Lynn 56; by Stonewall Jackson 73; by Washington Denmark 61.

You will see that Verdict traces three times to Pavline 55 (Old Pavline) and three times to Washington Denmark, thus combining the blood of two of the greatest show horses that ever lived.

## TERMS

Verdict will be allowed to serve Mares at

## Common Fault.

Some people don't know much, and even that they can't keep to themselves.

It will surprise a great many people to know that the largest tobacco farm in the world is in Georgia. It contains 3,000 acres and annually raises one-third of all the Sumatra tobacco used for cigar wrappers in the United States. Georgia tobacco brought an average of 35c per pound last year.—Blue Grass Clipper.

## Tyranny.

He took it deep a tickle.

And a mark on his face.

He hands a salute down awhile, then starts in to comb.

And 'brings' round de setting in 'tude' my work is through.

I wish she'd take it easy.

And lay off an hour or two.

She plays a march time fo' de hours.

And she's got me over an' over.

We'll dance 'till we're weary.

And 'brings' round de setting in 'tude' my work is through.

I wish she'd take it easy.

And lay off an hour or two.

—Washington Star.

## CURRENT VERSE.

The Land of Vanished Hours.

Where in the summer, the gay, glad summer.

Indulgent with light and bright with flowers?

It has given place to this and now, when Who has stripped the trees and soiled the flowers.

And where are the summers beloved and departed?

Which long, long ago gave joy to the earth?

Where then is the one when the flowers King Richard reigned and the Crusades had birth?

And where is the one which saw Rend-world's glory.

Which the statesman Elizabeth deigned to review?

And when Shakespeare lived, and his pen told each story.

Which comes down through the years, ever living and new?

Where is the summer when life spread before us?

Sweet to the heart and fair to the view, When we saw no cloud in the azure sky 'er us,

When earth was all glory and each friend was true?

Oh, the late and the long ago summers are dwelling.

In a place warm with sunshine and lovely with flowers.
